TECHNICAL DATA SHEET

BARMATE

PRODUCT DESCRIPTION

BARMATE is strongly alkaline and cleans and sanitises beerlines and glassware, leaving them sparkling and spot-free. It controls algae which cause sour-tasting beer and leaves no detergent residue which might taint beverages.

APPLICATIONS

BARMATE is used to clean beerlines and beer glasses in the hospitality trade.

DIRECTIONS FOR USE

BEERLINES

Blow pipes out, flush with water and fill lines with a 1 : 50 solution of Barmate in warm water. Allow to soak for 30 minutes, drain and flush with potable water.

GLASS WASHING

Mix a solution of 1 : 50 Barmate in water and add to detergent reservoir of machine.

GLASS DESCALING

Descale glasses with a solution of 1:20 Barmate in water.

DILUTION RATES

Beerlines	1 Part Barmate to 50 Parts warm water.
Glass washers	1 Part Barmate to 50 Parts water
Descale glass	1 Part Barmate to 20 parts water

SAFETY PRECAUTION

Strong caustic solutions can cause burns. Read and follow all information in the Material Safety Data Sheet.

STORAGE

Bar-mate contains chlorine and has a shelf life of approximately 6 months. Store in a cool dark place. Always replace lid immediately after use. **Keep away from children.**

GENERAL: The information and recommendations in this data sheet are to the best of our knowledge reliable. However, nothing herein is to be construed as a warranty or representation. Users should make their own tests to determine the applicability of such information or the suitability of any products for their own particular purpose.
