

TECHNICAL DATA SHEET

NEUTRAWASH

PRODUCT DESCRIPTION

NEUTRAWASH is a powerful, biodegradable, phosphate-free detergent. Because it is pH neutral, NEUTRAWASH will not dull the shine of polished surfaces. NEUTRAWASH contains no fragrances which might be irritating to those with respiratory sensitivities.

APPLICATIONS

Use NEUTRAWASH for cleaning cars and commercial vehicles without dulling the shine. NEUTRAWASH is safe for all general cleaning applications. NEUTRAWASH is particularly recommended for use on polished floors and other shiny surfaces where use of a pH neutral detergent is desirable.

DIRECTIONS FOR USE

General cleaning: Because NEUTRAWASH is so powerful, only a small amount is required. Dilute 1:100 parts water. Increase for heavy soiling.

Dish washing: 5 mls per 5 ltrs water

Car washing:

- Dilute approximately 10 – 15 mls NEUTRAWASH in 4 litres of water (2 – 3 teaspoons in half a bucket of water). Increase for very heavy dirt.
- Rinse vehicle with water, apply NEUTRAWASH solution with a sponge or soft cloth and rinse thoroughly. Washing and rinsing sections rather than the whole vehicle achieve best results.
- **NB:** Washing vehicles in direct sunlight may result in streaking.

STORAGE

Store NEUTRAWASH sealed in a cool dry area.

SAFETY PRECAUTIONS

Do not mix chemicals and always add chemicals to water.

KEEP ALL CHEMICALS OUT OF REACH OF CHILDREN. If poisoning occurs, contact a Doctor or Poisons Information Centre. **National Poisons Information Centre Dial 13 1126 (from anywhere in Australia).** Additional information is listed in the Material Safety Data Sheet.

GENERAL: The information and recommendations in this data sheet are to the best of our knowledge reliable. However, nothing herein is to be construed as a warranty or representation. Users should make their own tests to determine the applicability of such information or the suitability of any products for their own particular purpose.
