

TECHNICAL DATA SHEET

ALPINE FRESH

PRODUCT DESCRIPTION

ALPINE FRESH is a unique, highly concentrated, biodegradable, phosphate-free detergent. Because it is pH neutral, ALPINE FRESH will not dull the shine of polished surfaces. ALPINE FRESH has a fresh fragrance which lingers for hours.

FEATURES

- pH neutral – will not dull or streak shiny surfaces.
- biodegradable – environmentally- and user-friendly. Safe in septic tanks.
- phosphate-free – will not pollute waterways.
- general purpose detergent - suitable for almost any application including hard-surface cleaning and dishwashing. Particularly good at leaving shiny surfaces such as tiles, baths shower screens and glassware sparkling clean.
- lingering, fresh fragrance
- low foaming

APPLICATIONS

ALPINE FRESH is safe for all general cleaning applications. ALPINE FRESH is particularly recommended for use on polished floors and other shiny surfaces where use of a pH neutral detergent is desirable. Use ALPINE FRESH for cleaning cars and commercial vehicles without dulling the shine. It is excellent when used as an upholstery or carpet cleaner or for dishwashing.

DIRECTIONS

General cleaning (inc benches, walls, floors, windows, toilets, bathroom areas etc): Because ALPINE FRESH is so powerful, only a small amount is required. Dilute approx. 10 – 15 mls ALPINE FRESH in 9 litres of water. ie. 1part ALPINE FRESH to 600 – 900 parts water. Increase for very heavy dirt.

- Upholstery and carpet cleaning: 30 mls to 4.5 litres water. ie. 1 part ALPINE FRESH to 150 parts water.
- Machine Scrubbing: 1 part ALPINE FRESH to 900 parts water.
- Dishwashing: 5mls per 5 litres water
- Car washing: Dilute approximately 10 – 15 mls ALPINE FRESH in 4 litres of water (2 – 3 teaspoons in half a bucket of water). Increase for very heavy dirt. Rinse vehicle with water, apply ALPINE FRESH solution with a sponge or soft cloth and rinse thoroughly. Washing and rinsing sections rather than the whole vehicle achieve best results. **NB:** Washing vehicles in direct sunlight may result in streaking.

STORAGE

Store ALPINE FRESH sealed in a cool dry area.

ADDITIONAL INFORMATION

Additional information is detailed in the Material Safety Data Sheet which may be obtained from North Queensland Chemicals & Paints.

GENERAL: The information and recommendations in this data sheet are to the best of our knowledge reliable. However, nothing herein is to be construed as a warranty or representation.
