

TECHNICAL DATA SHEET

NORSOLVE NO.1

HEAVY DUTY INDUSTRIAL DEGREASER

PRODUCT DESCRIPTION:

Norsolve No 1 is an industrial degreaser designed to quickly and effectively remove petroleum based oils and grease. Norsolve No 1 is non-corrosive and can be used safely on zinc, copper, aluminium, etc., as well as painted surfaces, leaving them grease-free and ready for painting. NORSOLVE NO.1 contains approximately 75% liquid hydrocarbons w/v.

DIRECTIONS

- Ensure the soiled surface is free from water. Spray Norsolve No1 onto the soiled surface and allow sufficient time for penetration. Rinse off with hot or cold water, utilising a pressure washer or strong jet of water. Small parts may be cleaned using a dipping process followed by a water rinse.
- For extra heavy deposits of bitumen, grease and baked on oil, agitate with a stiff brush and allow an extended contact time. If necessary, wash any residues off with a biodegradable detergent such as NORGOLD.

NB: NORTH QUEENSLAND CHEMICALS & PAINTS DOES NOT ADVISE THE USE OF SOLVENT BASED PRODUCTS FOR DEGREASING ABSORBENT SURFACES SUCH AS CONCRETE FLOORS AND DRIVEWAYS. SOLVENTS DISSOLVE GREASE AND OIL AND THEN SOAK INTO ABSORBENT SURFACES.

All residues should be collected and disposed of in accordance with regional statutory regulations.

STORAGE

This product is flammable. Store in a cool spot away from sources of ignition. Always replace lid immediately after use.

SAFETY PRECAUTIONS

Do not mix chemicals and always add chemicals to water.

KEEP ALL CHEMICALS OUT OF REACH OF CHILDREN. If poisoning occurs, contact a Doctor or Poisons Information Centre. **National Poisons Information Centre Dial 13 1126 (from anywhere in Australia).** Additional information is listed in the Material Safety Data Sheet.

GENERAL: The information and recommendations in this data sheet are to the best of our knowledge reliable. However, nothing herein is to be construed as a warranty or representation. Users should make their own tests to determine the applicability of such information or the suitability of any products for their own particular purpose.
